Summary

Computer Science Engineering student seeking a Software Development / SDE Internship with strong foundations in JavaScript, React.js, Spring Boot, REST APIs, SQL, and databases. Hands-on experience building full-stack web applications, implementing role-based workflows, integrating frontend and backend services, debugging application issues, and developing responsive user interfaces. Strong problem-solving, logical thinking, communication, collaboration, and willingness to learn in fast-paced development environments.

Education

Chandigarh University — Punjab, India
Bachelor of Engineering in Computer Science and Engineering; CGPA: 6.97 — *2023 – 2027*

Bankura Banga Vidyalaya — West Bengal, India
Higher Secondary, WBCHSE; Percentage: 72% — *2023*

VSNHS — West Bengal, India
Secondary, WBBSE; Percentage: 92% — *2021*

Projects

RentFlow - Online Property Rental & Tenant Management | *React, Next.js, Spring Boot, REST APIs* | Live — Dec. 2025 – Apr. 2026

- Developed a full-stack property rental platform with role-based workflows for property listings, tenants, rent management, and administrative operations.
- Built Spring Boot REST APIs and database-backed modules, integrating frontend components with backend services for end-to-end application flows.
- Debugged frontend/backend inconsistencies and refined user journeys with maintainable code and clear feature-flow documentation.

BlinkExam - Online Examination System | *Next.js, React, Spring Boot, MongoDB* | Live — Aug. 2025 – Oct. 2025

- Built an online examination platform supporting quiz creation, timed attempts, submission, evaluation, and result history.
- Implemented and validated core examination workflows, including automated scoring and performance tracking, with attention to edge cases and data consistency.
- Troubleshot frontend-backend interactions and resolved application issues affecting reliable examination operations.

Swan Botanics Ecommerce | *React, Next.js, HTML, CSS, Responsive UI* | Live — Aug. 2025 – Oct. 2025

- Developed a responsive e-commerce interface with catalog views, dynamic product updates, and user-friendly navigation using React and Next.js.
- Built reusable UI flows and refined responsive layouts across common screen sizes for consistent application behavior.
- Structured product-information and catalog-management flows to support maintainable updates and clear user journeys.

Technical Skills

Languages: JavaScript, Java, Python, SQL, C, C++, HTML, CSS
Frontend: React.js, Next.js, Tailwind CSS, Responsive Web Design
Backend & APIs: Spring Boot, REST APIs, Backend Integration, Data Modeling Basics
Databases: MongoDB, SQL, DBMS Fundamentals
Development & Tools: Git, GitHub, VS Code, Command Line Basics
Core CS: Data Structures & Algorithms, OOP, Problem Solving, Debugging

Achievements & Certifications

- Completed NPTEL Cloud Computing Certification, strengthening understanding of cloud and distributed-computing concepts.
- Participated in Zinnovatio Hackathon, applying collaborative problem solving, structured execution, and project-presentation skills.
- Completed Certification in Mastering DSA, covering algorithmic problem solving and implementation fundamentals.

Core Strengths

- Strong communication, logical and analytical thinking, teamwork, ownership, structured debugging, documentation, adaptability, and willingness to learn new technologies.
